## BOARD OF CONTROL TO DIRECT ARMIES

### This Is the Inference War Expert Draws From Czar's Announcement

By J. W. T. Mason.

New York, Sept. 8.—With Grand Duke Nicholas removed from command of the Slav armies, the Russians hereafter will be directed by a board of control, presided over by the czar. This is the most probable inference to be drawn from the czar's telegram to President Poincaré announcing he had himself taken command, followed by announcement that the duke had been made viceroy of the Caucasus.

The grand duke could not be publicly disgraced after having supreme command for more than a year. But privately he could be reduced in rank by just such action as the czar has taken. At the beginning of the war, the grand duke was made commander in chief. He superseded even the czar

## Sacred Heart Academy

Under the direction of the Sisters of the Holy Names  
SALEM, OREGON  
BOARDING SCHOOL  
AND DAY SCHOOL

Most approved methods, Primary, Grammar and High School Departments, Complete Course in Harp, Piano, Voice Culture, Violin and Harmony. No interference with religion of pupils.

Modern Conveniences  
Domestic Comforts

Scholastic year begins second Monday in September

Address,  
SISTER SUPERIOR

whose title was simply "chief of the army." Later, it is reported, the duke treated the czar curtly when the latter visited the front.

The grand duke is of a stern, strict type, unaccustomed to intimate friendships. He may be of the type, popular when victorious, but friendless and without a chance of holding a command when disaster falls.

The duke attributed his reverses in the campaigns to the inability of the Petrograd war office to supply him with sufficient ammunition. But certain high quarters criticized him personally. Recently reports were circulated that the duke was extremely ill, and needed a rest. These stories probably were part of a plot to force his retirement, however.

The czar's announcement of a shift is doubtless the culmination of a long intrigue against the duke. But the czar himself has no particular military ability. Left solely to him, the campaign will bring forth worst disasters than it has already suffered. Hence, he will unquestionably surround himself with a board of strategy, to advise and direct the situation.

## Gas In The Stomach Is Dangerous

Physicians Recommend the Use of Magnesia

Sufferers from indigestion or dyspepsia should remember that the presence of gas or wind in the stomach invariably indicates that the stomach is troubled by excessive acidity.

This acid causes the food to ferment and the fermenting food in turn gives rise to noxious gases which distend the stomach, hamper the normal functions of vital internal organs, cause acute headaches, interfere with the action of the heart, and charge the blood stream with deadly poisons, which in time must ruin the health. Physicians say that to quickly dispel a dangerous accumulation of wind in the stomach and to stop the food fermentation which creates the gas, the acid in the stomach must be neutralized and that for this purpose there is nothing quite so good as a teaspoonful of pure bicarbonate of soda taken in a little water immediately after meals.

This instantly neutralizes the acid, thus stopping fermentation and the formation of gas, and enables the inflamed, distended stomach to proceed with its work under natural conditions. Bicarbonate of soda is obtainable in powder or tablet form from any druggist; but as there are many different forms of magnesia it is important that the bicarbonate which the physicians prescribe should be distinctly asked for.

AIKSHIP OVER ARIZONA

Los Angeles, Cal., Sept. 8.—That a mysterious dirigible airship flies almost nightly at great speed over the desert south of Parker, Ariz., sweeping the country with powerful searchlights, was the assertion here today of A. W. Martin, president of the Vista Land company; Dr. E. J. Vermilyea, of Redlands, and H. E. Ohnd, superintendent of the California Mines company.

Los Angeles Express: And while the boys of Europe are preparing to march to war, the boys of the United States are preparing to march back to school.

Dallas, Or., Sept. 8.—J. H. Fall, an employee of the Spaulding Logging company, while felling trees Monday was struck by a falling limb and his back was broken. He is at Dallas hospital and will die. Fall has a wife and two children at Eagle Creek, Oregon.

## WOODBURN TO HAVE NEW \$40,000 HIGH SCHOOL

The voters of the city of Woodburn yesterday voted to issue \$40,000 in bonds to provide for a new high school building in that city by a vote of 142 to 238.

It will be necessary to purchase a site for the new building out of the amount voted and it is probably that about \$25,000 will be put into the building.

Woodburn proposes to have an up-to-date high school with all the modern conveniences and equipment that goes to make one of the best educational institutions of the smaller towns of the state. Architect George M. Post is preparing the plans for the new building.

## CATARH CAUSED BY A GERM

Must Be Destroyed Before Catarrh Itself Can Be Cured, Says Specialist. Wonderful Results from Breathing Medicated Air.

Medicine taken into the stomach will never cure catarrh. And neither will the sprays, douches, lotions, creams and other temporary reliefs that so many catarrh victims make a habit of using. To cure catarrh so it won't come back you must first drive from your body the millions of germs that are flourishing in the inner recesses of your nose and throat and are causing the disease.

There is a preparation which does this called Hyomei (pronounced High-o-mei). Hyomei is a germ killing vaporized air formed from the purest oil of Eucalyptus combined with other healing and antiseptic ingredients. You breathe Hyomei through the mouth and nose by means of a little hard rubber inhaler which discharges Hyomei with it. This medicated germicidal air penetrates into every fold and crevice of the mucous membrane of your nose and throat, kills the catarrh germs that lodge there, soothes, reduces and heals the swollen inflamed membranes, stops the discharge and opens up the clogged nose and air passages in a truly wonderful way. It gives blessed relief in five minutes from catarrhal distress of every kind and if you make a practice of breathing Hyomei for a few minutes each day for just a few weeks not only will all the symptoms of catarrh vanish but the disease itself will be a thing of the past. No one need try or buy Hyomei on pure faith. Daniel J. Fry and many other leading druggists in Salem and vicinity sell it with the positive guarantee that it must cure catarrh or that the money paid for it will be refunded. Hyomei is very inexpensive and with this protecting guarantee behind your purchase there is absolutely no reason why any sufferer from catarrh should not give it a fair trial.

## Governor Withycombe Issues Requisitions

Governor Withycombe yesterday issued requisitions upon the governor of the State of Washington, the State of California, and the State of Texas, as follows:

Upon the governor of the state of Washington for the extradition of one George P. Rossman, who is wanted in Multnomah county for the crime of larceny by bailie. He is now being held by the authorities at Vancouver, Washington.

Upon the governor of the state of California for the extradition of one W. C. Hill, who is wanted in Klamath county for failing and refusing with-out just and sufficient cause to support his wife and children.

Upon the governor of the state of Texas for the extradition of one H. E. Anglin, wanted in Klamath county for the crime of polygamy.

## WOULD LIMIT STEAM TRAINS TO SPEED OF 3 MILES PER HOUR

### Street Committee Proposes To Force S. P. To Protect Pavement On 12th

A bill for an ordinance to limit the speed of steam trains to three miles per hour within the city limits was read at the meeting of the city council last night and referred to the ordinance committee. A remonstrance against the paving of the Fairgrounds road was also read and the council decided to authorize the health and police committee to provide a rest room for the use of the people visiting this city during the state fair. The remainder of the business coming before the council at this meeting was more or less routine.

The ordinance introduced by Alderman Cook, chairman of the street committee to regulate the speed of trains was explained by him as an attempt to compel the Southern Pacific to build a retaining wall along Twelfth street where the paving between the rails of the track was of plank. It was recalled in council that the railroad company first paved with Belgium blocks which were set in cement but it was found that the heavy trains crushed the cement and caused the track to settle. In order that the section crew could repair the tracks without obstructing the streets the railroad company was given permission to tear out the paving blocks and to put in planks provided the company would build a retaining wall at the edges of the pavement on either side of their track so the pavement would not hang suspended without a support and crumble with the weight of the traffic. It appears that the retaining walls have not been built and the street committee reports that the property owners who paid for the pavement object to it being spoiled through the failure of the company to build retaining walls.

M. L. Hamilton and 18 others, all property owners along the Fairgrounds road remonstrated against the paving on the grounds that they were in favor of a pavement if the state could appropriate \$2,000 and the merchants of the city would put up another \$1,000 but the petition states that both sources have failed and the property owners do not feel able to pay for the pavement under the conditions.

The health and police committee reported that they could secure a room in the basement of the Masonic temple for a rest room provided they would elect a warden to keep the room in order and to provide for the comfort of the patrons of the rest room. This is to be in use during the coming state fair only.

A representative of the Montague-O'Reilly Paving company was present and offered a compromise in the matter of the curbing on Mill street, the payment of which was held up because the property owners were dissatisfied with the work. The contract for the curbing was subject to another party and the Montague-O'Reilly people were not responsible for the work as actually done. The city was withholding \$1,880 and the company agreed to discount this bill 12 1/2 per cent or \$235 and their proposal was accepted by the council.

The report of the street committee relative to the widening and opening of Cross street stated that the city could purchase from Charles H. Jones two strips of land needed for the sum of \$400 and the street committee recommended the purchase of this land. The street committee also asked that the old church building which has been standing at the corner of Center and Liberty streets be removed from the streets by fair time.

W. Al Jones, secretary of the state fair board, was given permission to advertise the fair by stringing a line of banners across the streets. The sum of \$40 was received and turned over to the treasurer as the contributions of the property owners along the "north three blocks of Seaside" and the west one-half block of Mission for ciling. The Orpheus Male chorus was allowed \$10 to pay for the moving of the piano to the band stand at the dedication exercise of the new band stand.

Mayor Harley O. White was out of the city last night and Councilman Mills was elected to act as mayor for the regular meeting.

## "Raffles" In Real Life Robbed Armour Mansion

Chicago, Sept. 8.—Detectives today believed an up-to-date Raffles with two partners was responsible for the holdup and robbery of Mrs. J. Ogden Armour in her Michigan avenue mansion Monday night, when jewels worth \$3,000 were taken.

They had rounded up Melville Reeves alleged "society" burglar, and planned to present him to Mrs. Armour for identification purposes. That one will be able to mark him, if he is the guilty party, is the police belief as he calmly gathered complete descriptions of the men while one covered her with a revolver, and the others snatched her jewel deposits.

Reeves told the police as calmly and suavely as though he were discussing society in a drawing room that he knows absolutely nothing of the Armour case though his description conforms closely to one of the three given them by Mrs. Armour.

SELL GERMAN VESSEL. Astoria, Or., Sept. 8.—The five-masted German bark Kurt which has been anchored in the Columbia river above Tongue Point since the opening of the European war is to be sold. Instructions to this effect were received by Captain Tomlinson today from the owners of the craft in Germany. According to Captain Tomlinson the bark is to be disposed of provided that a fair price is offered for her.

The bark entered the river September 11, 1914 and is one of the finest vessels of the kind that has ever entered the river.

Washington, Sept. 8.—What may be the final blow at General Villa's army was reported today in state department messages detailing the fall of Saltillo.

The Villistas retreated toward Torreon, abandoning three trainloads of soldiers and most of the Villa artillery. General Raoul Madero's troops were reported to have been isolated.

The dispatch was dated Tuesday at Torreon.

SERIOUS BLOW TO VILLA. Washington, Sept. 8.—What may be the final blow at General Villa's army was reported today in state department messages detailing the fall of Saltillo.

## Eugene Bosse Comes Back From War-Torn Belgium

(Continued from Page One.)

airship that was a huge speck in the sky and that night or rather the next morning at 2 o'clock just as it was breaking day, five machines circled over the city and dropped bombs into the German forts, killing fifty-four men. Anti aircraft guns and cannon were trained on the machines but they were too high. The Germans, he said, did not permit the raid of the airships and the killing of their men to get into the press dispatches.

"Did you see any fighting?" he was asked.

"No one sees any fighting," he replied. "The cannon roar and you cannot hear yourself think and men are killed by hundreds but all are under ground. The cannon are over on the other side of a hill or hidden by trees and only the scream of the shells with their message of death is heard but you do not see anything. Earlier in the war it was a common sight from Brussels at night to see dozens of villages burning and lighting up the sky with a red glare, some near and some far away. Later, hundreds of refugees would come to Brussels or any where else to get away from the scenes of their ruined homes but everyone in Belgium is more or less of a refugee now and such things are common. It is horrible, the war is a crime."

## MARTIAL LAW NEXT ALONG MEXICAN LINE

### General Funston Is Said To Be About To Issue Military Decree

Brownsville, Texas, Sept. 8.—Martial law along the Rio Grande, throughout this section, will soon be declared, if General Funston carries out his present plans.

He expects to throw his lines along the entire border in this region as a result of the recent serious raids by Mexicans. That a concentrated show of force will have as much persuasive force as American bullets is the belief of military men.

Following out of the view that size impresses a Mexican, Funston intends to mass all available troops while he leaves the interior situation to be cared for by state and local forces.

Authorities continue to find increasing evidence of widespread acceptance of the plan of San Diego, whereby Mexicans were to seize a considerable strip of American territory, particularly along the Texas border. This evidence, in many cases is documentary. Certain it is that the movements across the Rio Grande have not been unorganized raids, but General Funston is now confident that concentration of United States troops will completely check their growth.
